EDUCATION

WorldQuant University – MSc in Financial Engineering	07.2025 – Present
ITMO University – AI Talent Hub, Master's Degree	09.2023 – 06.2025
Higher School of Economics – BSc in Applied Mathematics and Computer Science	01.2020 – 06.2023

TECHNICAL SKILLS

Languages: Python, SQL, C++

ML / Data: NumPy, Pandas, Scikit-learn, PyTorch, OpenCV, HuggingFace, SciPy, Plotly, Matplotlib, Seaborn

Tools: Docker, Airflow, MLflow, Git, Linux, Bash, Cursor

Languages: English — B2

WORK EXPERIENCE

ML Engineer — WorldChess	09.2024 – Present
– Developed ML models for evaluating chess position complexity and analyzing gameplay data. – Built a cheater detection system using statistical analysis and ML methods, reducing false positives by 40%. – Designed player matchmaking algorithms, reducing average opponent search time by 2x. – Redesigned the game analysis interface and implemented a gameplay analytics system. – Identified inconsistencies in player ratings causing unbalanced matches and losing streaks; introduced dynamic matchmaking, increasing D30 retention by 25+%.	
Data Scientist — Sber Devices	08.2023 – 09.2024
– Developed fraud detection algorithms and identified suspicious user behavior patterns. – Built automated data pipelines and model execution workflows using Airflow. – Created monitoring systems and analytical dashboards using Plotly/Dash. – Reduced data labeling costs by automating similar record detection.	
ML Engineer — Yandex Ads	11.2022 – 03.2023
Data Scientist — Yandex Routing	11.2021 – 05.2022

OLYMPIADS

- Prize winner of the final stage of the Russian National Mathematics Olympiad (2018).
- Winner of the regional stage of the Russian National Mathematics Olympiad (2016–2018).
- Second-degree diploma, Moscow Mathematics Olympiad (three times).
- Winner of the "Higher Test" Olympiad in Mathematics (2018).
- Second-degree diploma, "I am a Professional" Olympiad in Artificial Intelligence (2023).

MATHEMATICS AND ML BACKGROUND

- Master's thesis: GitHub
- Bachelor's thesis: GitHub
- Advanced Mathematics: calculus, linear algebra, probability theory, mathematical statistics.
- Machine Learning: ML, Computer Vision, NLP, Ranking, Matching, MLOps.
- Financial Mathematics: introduction to mathematical finance (Vega).
